Haley is as shy as they come and she has had a lot of fears to overcome, but all of us have made great progress on this long term project. We are so proud of her. Haley absolutely LOVES to go for hikes anytime and she is really getting into running in harness pulling us on our bikes or skis. When we arrive at "sled dog" activities such as the Sno-Park or cart races she is engaged, doesn't hide in the back of the truck and is ready to play.

Wahkai and Thugo (TOO-go) spend most of their time beating each other up. Wahkai was ganged up on so much when the rest of the boys were here, that she plays rougher than she should. Thugo is fairly laid back. Wahkai can't get him to chase her unless she pisses him off. So she sets up and waits, ambushes him when he comes around a corner, and keeps it up til he's mad enough to kick her butt. So she runs away and he chases her. They run and run until he finally cuts her off and catches her, and bats her mercilessly. This goes on several times a day. Enough to drive a person nuts. I am so afraid that they will end up getting hurt or one of them ending up with a broken neck. It's hard to believe that they can't bare to be separated.

Boomer is wonderful, & there is nothing he can't do! We have been attending classes in agility, obedience & rally, & this memorial day he began to compete.....and win! In just a few short month's he has earned his RN, RA, & RE (rally -novice, advanced, & excellent), his NAJ (Novice Agility Jumpers), his CGC (Canine Good Citizen), & has qualifying scores towards his Novice Agility (NA), Novice FAST (NF), Novice Jumpers, & Novice Tunnelers titles. He is currently working on Open & Utility obedience exercises. In addition to all of this he has had fun lure coursing, sheep herding dock diving, flyball, & boy does he love to swim! I am hoping to get a scooter to help build endurance & teach him to pull. We hope to make Boomer as happy & active as he makes us for many years to come. Thank you SNO for all of the wonderful work that you do, & thank you Gail for getting me to go take a look.

Dana has been full of surprises from the very start. We'll never forget first setting eyes on this undersized little sweetie that never grew into her ears, with a face that never fails to bring a smile. While she's never grown in size, her heart and personality are huge. Dana's become our only husky (out of seven) who is unquestionably trustworthy in the house with our six cats. Our male Bengal, Nicholas, has become her good buddy. They play together, sleep side-by-side, and even share treats out of the same bowl. Who would have believed it? Because of her small size and seemingly fragile build, we were sure she'd never be able to run with the other sled dogs. But her huge heart has come through again and she's become a joy on the trail. A very special girl, we can't imagine any dog bringing more joy to our lives. And we've owned Siberians for over 27 years!

Blue is by far the easiest Siberian Husky I have ever encountered. He does pretty amazing with his recall and loyalty... much better than I was expecting after my last Siberian Husky! He has been such a joyful addition to our family and seems to really enjoy getting up to the mountains with me. Hiking, camping, snowshoeing. And the best part is, he can sleep in! I'm so glad you all saved him and we got him! Thank you!
