

Kyra

Our special lady Kyra, she is doing very well indeed. She hits the scales at 45 lbs. is very healthy, full of energy, eats well, and most importantly, has become a very loving girl and important member of the family. Kyra to date has never given us any problems. She is fully crate trained. She loves to play, run, stand out in the rain sniffing the air, and really loved last years snow fall. She sees a vet for all her shots and checkups when needed, but like most kids, isn't thrilled with the experience. In our eyes, she is the perfect addition to our family and we are both very happy that she came into our lives.

Nino

Nino is all play and will chew on Logan until he plays with me. I like to go on walks (drags) with Mom and Logan. This way I can watch Logan dig up field mice and chase them. Logan just gets to involved in digging to do the chasing.

Joe & Diana Walker

Logan

He likes to chew on raw hides and take Mom on drags (walks). Mom takes Nino and me to the back pasture to dig for field mice. I get so involved in digging I forget to chase the field mice. I guess that is why Nino comes along.

These two keep me young and going. It would be hard to imagine what life would be like with out them and all the joy they bring to Joe's and my life.

Elvis

Elvis is doing really good. We did some private obedience lessons with him and Zoe and then signed them up for obedience school. He is really good at all his new tricks! He is very eager to please us so very cute! We love having him in our lives everyday, he is so sweet loves to have his belly rubbed or cuddle up on the couch he is so funny just follows us where ever we go.

Jocelyn Larson

Kari

Kari is an incredible success story! She is friendly and outgoing and likes to think she can pretend to be a blade of grass, - er well perhaps Zebra grass, as she is black and white bundle of positive energy! Max our 8 year old siberian and Kari have learned to welcome 2 cats and 2 birds and are regular volunteer greeters at Grandview and Frenchs off leash dog parks.
Thank you all for the chance to enrich our lives and preserve hers!
